

Ref. 1615

Ref. 1611

Ref. 1613

Features

- Double wall, metal construction: exterior painted in epoxy with anti-oxidant treatment and interior basin made of 18/10 stainless steel.
- Heating by shielded heating element made of AISI 316 stainless steel.
- Equipped with a safety thermostat that has a manual reset in the event of over-temperature according to DIN 12877, class 2.
- Control panel includes:
 - Illuminated ON switch
 - Indicator light showing heating element operation.
 - Safety thermostat indicator light.
 - Temperature control.
- Manufactured according to CE directives.
- Voltage: 230V/50Hz

Specification

MODEL	1611	1613	1614	1616
Capacity (l)	5	5	12	20
Type	Digital			
Max. Temp. (°C)	100	100	200	200
Useful measures (mm) WxHxD.	290 x 150 x140	320 x 150 x290	320 x 150 x 290	490 x 150 x 290
Probe	PTC		Pt100	
Power	220VAC
