

### Gradient Pump

- High Precision ( $< \pm 0.1\%$ )
- Wide flow rate range (0.001 ~ 16.0 ml/min)
- Automatically flushing function
- Built-in gradient controller
- Digital RS -232 control

### Vacuum Degasser &

- With Vacuum Degasser & Mixer low pressure gradient module, you can take many advantages for up to 4 solvent mixing and degassing
- Configure with Gradient pump
- Easy mixing and in-line vacuum degassing

### UV/VIS Detector

- Simultaneous dual wavelength detection
- Programmable wavelength scanning
- Wavelength range : 190~900 nm
- Easy to maintain (Easy access lamps and flow cell)
- Czerny -Tuner Optics
- Digital output and control

### Column Oven

- Reliable and accurate results
- Programmable temperature range ( Ambient to 85°C )
- Complete safety device
- Up to 4 different 30 cm columns
- Digital RS-232 control

### Autochro-3000 Data System

- Compatible with MS-Windows XP
- Designed for GMP and GLP guidance
- Stable operation by modular design
- Control of Acme HPLC
- Data actuation of Non-YL HPLC
